To Whom It May Concern:

RE: Collette Ceilings & Drywall Inc.

Collective Construction & Design, Inc. has known Mr. & Mrs. Paul & Kim Collette, President/Vice President of Collette Ceilings & Drywall for over 20 years.

Our experience with this company has been in a variety of areas including installation of metal framing, drywall, drywall finishing, acoustical ceilings and grid. They also have worked with our firm doing demolition on projects.

Collette Ceilings & Drywall has been our key supplier and installer for Marriott Corporation projects for these years, along with many other clients.

We would recommend Collette Ceilings & Drywall for any project because of their work ethics with our company and excellent service and high quality of workmanship we have received.

If you would like to speak with me regarding this please feel free to do so.

Sincerely

Arthur Kubli  
Vice President
